Customer No. 01933

22. (Currently Amended) The service vehicle according to
claim 9, wherein the path defined by the step section extends
from the seat through a section adjacent to and directly in front
of the seat-side block to a lateral exit position on the upper
5 swing body.

23. (Previously Presented) The service vehicle according to
claim 9, wherein the upper swing body comprises a floor on which
the seat and the seat-side block are mounted, and the step
section is formed as a part of the floor to be flush with the
floor.
